Natural Foods Market

If arthritis, tendonitis and/or fibromyalgia is causing you chronic pain, you'll want to know about a pain-relieving topical cream called **Sore-No-More**. A blend of botanical extracts developed to give soothing, penetrating relief from sore muscles, joints and tendons, this cream absorbs quickly and effectively to help reduce related inflammation.

Through the synergistic effect of natural plant extracts such as aloe, yucca, witch hazel, capsaicin, queen of the prairie and green tea, **Sore-No-More** provides an anesthetic-type effect that suppresses sensory receptors, blocking pain at its source.

Sore-No-More has been found to also help with the pain and inflammation associated with carpal tunnel, sciatica, headaches, neuropathy and strains and sprains from injuries, as well. With only the highest quality ingredients, it contains nothing artificial and no animal by-products, greasy oils, wax, alcohol, offensive odor or staining color.

As always, we guarantee your satisfaction.
